

Dear Students,

2022-2023 Academic Year SPRING Semester courses will be held online in accordance with the decision taken by University Senate.

We wish you all a healthy, beautiful and successful period.

Head of Mechanical Engineering

THE FOLLOWING INFORMATION ABOUT THE IMPORTANT ISSUES REGARDING COURSE REGISTRATIONS IS GIVEN.

PLEASE DO NOT REGISTER WITHOUT READING.

Click here to download the announcement as a .pdf file.

- o Course registration will be done through the OBS automation system: <https://obs.yildiz.edu.tr/>
- o Click for the 2022-2023 Academic Year Fall Semester course schedule.
- o Click for Project 1-2 and Graduation Study groups
- o In MAK4072 Private Laboratory Lesson, Gr 1-3-5 are Mechanical and Gr 2-4-6 Thermal groups.
- o Click for the Student Affairs Office announcement.
- o With the petition to take a course, course registration (except for the excuses in the regulation) will not be in question.
- o According to the information received from the Registrar's Office, course selection will be made for each class between 09:00 and 23:59 on the relevant day.
- o The quota increase schedule is as follows:
- o 4th grade courses, MAK4XXX coded compulsory and elective courses will be opened with a capacity close to the maximum, and the quota will not be increased until the day of independent course registration.

o 3rd year courses, MAK3XXX coded compulsory (except Project 1) and MAK3XXX-MAK4XXX coded elective courses will be increased before 09:00 on February 18 (when the system is closed the previous night).

o 2nd year courses, compulsory courses with the code MAK2XXX, will be increased before 09.00 on February 21 (when the system was closed the previous night).

o 1st year courses, MAK1XXX coded courses, will be increased before 09:00 on February 22 (when the system was closed the previous night). Our department does not have the authority to increase the capacity of MATXXXX, FIZXXXX, MDBXXXX, TDBXXXX, KIMXXXX courses. Discuss the capacities of these courses with the relevant department heads. (Ex: Head of Mathematics Department for MATXXXX etc.)

o For the independent course registration day on February 23, the quota of all courses will be increased (while the system was closed the previous night). Since this increase is limited to class capacities, it will be possible to increase it to a certain extent.

o Project 1 – Project 2, Graduation Study and Special Laboratory courses have been determined from the first day, close to the maximum capacity. When all groups (all thermal groups or all mechanical groups separately) are filled, these courses are increased regardless of the above schedule.

PROJECT 1 / PROJECT 2 LESSONS:

Project 1 and Project 2 courses can be opened with at least 3 quotas. Groups chosen by less than 3 students will be closed, and the students in these groups will be transferred to other groups by the department. The quota will not be increased until the project groups are full.

Click for Project 1-2 and Graduation Study groups

Rules for Project1, Project 2 and Graduation Study Lessons:

Each student is required to design a Mechanical group and a Thermal group. (This condition is not required for those who have passed both Project 1 and Project 2 courses before the 2012-2013 Fall semester.).

Students with an odd last digit of their student number will choose Project 1 from the Mechanics group, and students with even numbers from Project 1 from the Thermal group. Students with an odd last digit of their student number will choose Project 2 from the Thermal group, and even students from the Mechanics group. The courses of the students who do not choose Project 1 and Project 2 as above will be deleted.

VOCATIONAL ELECTIVE COURSES:

In the 2018 Education Plan, all Vocational Elective courses are in the same pool as "Vocational Elective 1", and a total of 8 must be successful in order to graduate. Click to access the list of courses from the lesson plan.

Moreover, this semester, for the first time, elective courses can be taken from the Department of Industrial Engineering. These courses will also be evaluated in the "Vocational Election 1" pool explained above. In other words, you can take the number of courses you have determined out of the 8 courses you need to take from the elective courses of the Industrial Engineering department. The course information offered in the Department of Industrial Engineering this semester is given below:

(Vocational Elective 2) END3990 GR.1 Database Management Systems - Assoc. Dr. Selcuk Alp - Online - Monday - 15:00 / 16:50

(Vocational Elective 2) END3570 GR.1 Management Information Systems - Dr. Instructor Member Özge Nalan Bilişik - B502 - Monday - 15:00 / 16:50

(Vocational Elective 2) END3890 GR.1 Industry 4.0 - Dr. Instructor Member Hayri Barađı - B403 - Monday - 15:00 / 16:50

(Vocational Elective 2) END3900 GR.1 Data Mining - Assoc. Dr. Serkan Altuntaş - B501 - Monday - 15:00 / 16:50

You can find out which of the elective courses on the list for both departments are offered this semester from the curriculum.

The courses to be closed due to the quota of less than 15 students will be announced and closed on Monday, February 27. Those who have registered for these courses can choose courses within the vacant quotas on the Add Course Day on Tuesday, February 28. With the petition, you can also get one of these courses.

CAUTION! These courses cannot be taken with a petition.

RELATED REGULATIONS AND DIRECTIVES:

Please read the following information carefully and make your course registrations in accordance with the rules.

Be sure to read Yıldız Technical University Associate and Undergraduate Education Regulations and related Directives. Links to the Regulations and Guidelines are given below.

INSTRUCTIONS

- YTU Special Student Directive (YÖ-014)
- YTU Directive on Transition Between Associate and Undergraduate Degree Programs and Double Major Programs (YÖ-005)
- YTU Directive on Recognition of Prior Learning (YO-064)
- YTU Examination Directive (YÖ-075)
- YTU Undergraduate Education Internship Application Directive (YÖ-006)

- YTU Academic Counseling Directive (YÖ-031)
- YTU Summer School Directive (YÖ-007)
- YTU Directive for Admission of Students to Undergraduate Programs from Abroad (YÖ-025)
- Directive on the Continuation of Graduate Education of Graduates of YTU Vocational Schools (YÖ-015)

ABOUT ATTENDANCE

The following decision has been taken by the Faculty Board of the Faculty of Mechanical Engineering for the MAK coded courses excluding Project 1-2, Graduation Study, Laboratory and Special Laboratory courses.

"As of the spring semester of the 2019/2020 Academic Year, it has been decided that "if the student retakes the course that he/she has attended, the attendance requirement will not be sought."

Head of department regarding course registrations:

Dr. Alperen ACAR

Deputy Head of Department
